

eyetelligence™

Connecting Every Step

Eyetelligence™ software platform for Cataract Surgical Planning

Surgeon Built, For Surgeons

- A seamless, secure flow of information from the office, to the surgeon, to the OR by connecting with various EMR and diagnostic platforms.
- Surgical planning tool provides surgeons with access to critical patient information used for surgical planning and calculating their IOL powers, anywhere, anytime.
- Expanded communication using a Surgeon and Nurse/OR Circulator application for enhanced workflow.

The Eyetelligence™ software platform is also exclusively connected to the Stellaris Elite® vision enhancement system

- Eyetelligence™ provides surgeons with access to their personal settings from any Stellaris system and allows for expedited technical service, assessment, and customer support.
